## PROFESSIONAL SUMMARY & CAREER OBJECTIVE

Hello, I'm Vu, a Senior IT Project Manager with more 6 years of experience spanning Software Development, Technical Leadership, and Cloud Infrastructure. I specialize in Agile/Scrum methodologies, precise project estimation, and strategic resource coordination for large-scale, cross-functional teams (20+ members). With a proven track record in both Product and Outsourcing environments, I have successfully delivered complex Cloud-based deployments and high-availability systems across AI, IoT, E-commerce, Green Agriculture, and Integrated Online Learning Ecosystems (LMS/Gamification). I am passionate about bridging the gap between technical complexity and business value, thriving in dynamic environments where Cloud scalability and robust Risk Management are key to project success.

## EDUCATION & CERTIFICATIONS

HO CHI MINH CITY UNIVERSITY OF TECHNOLOGY AND EDUCATION | Bachelor of Engineering in Information Technology | 2016 – 2021

## WORK EXPERIENCES

02/2025 – Present

### FPT SmartCloud

Project Manager Ho Chi Minh, VietNam

- Lead end-to-end project management for large-scale Cloud Migration and AI integration projects for enterprise clients (Tiki, MoMo, Golden Gate), ensuring strict adherence to security and operational standards.
- Manage a cross-functional team of 20+ members (Presale, BA, DA, Dev, AI) to execute infrastructure build-out projects, effectively resolving complex technical risks.
- Define project scope, technical requirements, and comprehensive resource plans, optimizing cost efficiency and system performance.
- Drive continuous improvement initiatives and maintain rigorous documentation for architecture designs and progress reporting.

01/2024 – 02/2025

### ENFARM AGRITECH

Product Manager / Product Owner Ho Chi Minh, VietNam

- Directed 15+ members cross-functional team to develop an IoT system for environmental data analysis, integrating AI technologies to enhance monitoring efficiency.
- Spearheaded product development that led to the product winning the AI Award 2024 and becoming a Top 5 finalist in the Impact Challenge 2024.
- Played a key role in preparing the product for Shark Tank Vietnam (Season 7), successfully securing investment offers through strategic product positioning.
- Managed the full product lifecycle, from roadmap planning to delivery, ensuring alignment with stakeholder vision and market needs.

2020 – 2024

### SUNSHINE SOFTWARE

Project Manager / Product Manager Ho Chi Minh, VietNam

- Large-scale Delivery Management:** Led the project execution for the "5 Phút Thuộc Bài" ecosystem. Coordinated a massive workforce (50+ personnel) including engineers and content experts to meet strict release deadlines.
- Agile Process Optimization:** Implemented and enforced Scrum ceremonies (Sprints, Stand-ups, Retrospectives) across multiple project streams. Monitored velocity and burndown charts to accelerate feature deployment.
- Scope & Requirement Management:** Collaborated with stakeholders to define requirements and managed the Product Backlog to align development efforts with business priorities.
- Key Projects Management:**
  - Matbao.one Customer Care System:** Led a 12-member team to develop a call management system. Coordinated directly with client stakeholders to define specs and managed strict resource schedules.
  - Buzan Mindmap:** Managed the Agile development lifecycle for a real-time collaborative tool. Oversaw performance testing and quality assurance processes.
  - Matbao Smart Event:** Conducted project estimation and allocated resources to ensure the timely delivery of a complex attendee tracking system.
  - HitaGame & HitaCamp:** Led sprint planning and daily stand-ups for an 8-member gamification team, ensuring educational goals were met within the approved timeline.

2019 – 2020

### SOLAZU JSC

Full Stack Developer Ho Chi Minh, VietNam

- Developed a comprehensive SaaS Sales Application system, handling both frontend interfaces and backend services.
- Built dynamic user interfaces using React.js and React Native, ensuring high performance and responsive design.
- Implemented backend logic and API integrations using Node.js and managed data architecture with PostgreSQL.

---

## KEY PROJECTS HIGHLIGHTS

---

### Enterprise Cloud Migration

Project Manager | Large-scale Migration

- Managed large-scale cloud infrastructure deployments for major enterprise clients including Tiki, MoMo, ACB, and Golden Gate Group. Oversaw cross-functional teams (Presale, BA, Dev, AI,..) to ensure strict adherence to security and operational standards.

### Enfarm Agritech IoT & AI System

Product Manager | IoT & AI Agritech

- Led product development for an AI-driven agricultural system. Positioned product to secure investment offers on Shark Tank Vietnam (Season 7), won the AI Award 2024, and achieved Top 5 Finalist status in Impact Challenge 2024.

### 5 Phút Thuộc Bài & Hita Series

Project Manager | eLearning platform

- Directed the production pipeline for 8,000+ bilingual video lessons, coordinating 50 subject matter experts to meet aggressive rollout schedules. Implemented cross-platform strategies that significantly increased user adoption and retention.

### Buzan Mindmap

Project Manager | SaaS Collaboration Tool

- Led the end-to-end development of a real-time collaborative mind-mapping SaaS platform. Managed the integration of complex features like live sharing and simultaneous editing, ensuring high system scalability and optimized user experience.

### Matbao Smart Event

Project Manager | Event Management Solution

- Developed a comprehensive smart event system handling registration, scheduling, and real-time attendee tracking. Successfully streamlined operations for large-scale events, improving management efficiency and data reporting capabilities.
